TECHNICAL SKILLS

Proficient: JavaScript, Node, React, Git, Express, PostgreSQL

TECHNICAL PROJECTS

Interactive Map Maker Tool | Sole-Developer

<https://interactivemapmaker.up.railway.app/>
<https://github.com/hcl3535/interactiveMapMaker>

- Developed a FullStack application using React, Node, Express, and PostgreSQL.
- Designed and created a PostgreSQL database for users to persist data and utilized AWS S3 buckets to store images.

Personal Page | Sole-Developer

<personal-site-production-d50c.up.railway.app>
<https://github.com/hcl3535/personal-site>

- Developed a Single-Page-App with React
- Designed a easy to follow app that shows the projects I have worked on
- Developed a built in contact page using emailjs

JeepersWeatherApp | Developer

<https://play.google.com/store/apps/details?id=com.JeepersWeather.app>
<https://github.com/hcl3535/jeepWeatherApp>

- Developed with React, Axios, and Capacitor
- Designed and implemented the home page using React, and retrieving real time information using Axios
- Created a preferences tab that customizes the users experience
- Used Capacitor to quickly turn the web app into an android app that is available on the Play store.
